## ALUMINIUM

Le profil de aluminium termo laqué et soudé avec serrure encastrer. Fabriqué à la main de haute qualité, qui n'aurá pas besoins de utilisé des vis ni des écrou. Le professionnalisme du soudeur TIG garantit la solidité et la rigidité constante de vous portails, évitant ainsi toute déformation à long terme.

## ALUMÍNIO

Perfis de alumínio termolacado e soldado com fechadura encastrada. Trabalho artesanal de alta qualidade, que não recorre ao uso de qualquer parafuso e porca. O profissionalismo da soldadora a TIG garante a solidez e constante rigidez do seu portão, evitando assim qualquer deformação a longo prazo.
